Product description

Product advantages The spray bottle is made of high-quality plastic, and the material thickness is far greater than that of similar products. It has strong chemical resistance and can easily contain aromatherapy essential oils, plant water fertilizers, cleaning solvents, disinfectants, etc. The bottle body and the nozzle are separated by a sealing rubber ring, so as to ensure that the spray bottle will not have annoying dripping, even if you shake it upside down completely. The nozzle is made of the latest atomization technology, and the sprayed water is fine and uniform. The grip is ergonomically designed, it is comfortable to hold, and the trigger force is moderate. Scope of application Our spray bottle is very suitable for watering indoor and outdoor plants, household cleaning, pet cleaning, car cleaning, etc. Our after-sales The products have been strictly tested before being sold. There may be a small amount of water remaining in the pipeline during the product factory test. The water used for the test is clean drinking water, please rest assured to use it. If you have any questions during use, please contact us and we will serve you wholeheartedly.

Product information

Product Dimensions	4.33 x 4.33 x 9.84 inches
Manufacturer	KUKTDUD
ASIN	B095H2748H
Item model number	M-680
