How Edge Compute Is Redefining Automation in Manufacturing

May 27, 2021 | Ryan Spurr

In manufacturing, edge computing is not new. Factories have long had compute solutions in the plant, including programmable logic controllers (PLCs), local plant micro data centers or servers, and extensive...

Telemedicine After the Pandemic
May 20, 2021 | Dr Keith Nelson

COVID-19 has forced a myriad of changes to healthcare delivery, but none more compelling than the mainstreaming of telemedicine. Initially, the urgent necessity of connecting patients to providers without potentially...
