Storage: you won't have enough cards and bills to fill out all the card slots that this wallet has to offer: 6 interior card slots, 1 id window

Keep your most used cards in easy reach

Place your most used cards in the wallet's main slots for quick access. And move your less used cards to the pull-tab section – for when you need them.

One size fits all

The Note Sleeve's height means it can stay super slim while carrying tall currencies, like Pounds and Yen. Perfect for your international travels.

No more dirty business cards

Keep your business cards in the rear slot of the bill section. This will separate your cards away from the rest of your contents, keeping them clean and crisp for longer.
