Product description

Tip: If you get a blurry/distorted image when you use the mirror, please get closer to it because it is a 10X magnifying mirror.

10x magnification for different part

10x Strong Magnification

10 times magnification is ideal for very detailed jobs such as eyebrow tweezing and contact lens placement. Magnification can also help one closely examine pores to help protect against blackheads.

Natural White Light

The bright natural light is easy on the eyes and provides a soft, white light to highlight every detail of your hair and makeup. The light's shape eliminates shadows and allows the mirror to be used even in very dark environments.

Easily Mountable

The integrated suction cup has a locking mechanism to securely mount the mirror. Simply place the mirror and rotate the base in a clockwise direction to lock it to the surface. Rotate it in the other direction to release the mirror.

Recommended Distance & Adjustable Angles

Keep distance between face and magnifying mirror within 6in for better view and in case of dizziness. The swivel joint allows easy movement of the mirror's face for great viewing at any angle

How to mount the mirror

The table or wall surface the mirror will be mounted to must be clean, dry, and free of grease such as on a table, wall, window and even on a large mirror.

Place the suction cup on the table or wall surface and rotate the base in a clockwise direction until you heard a CLICK sound to lock it to the surface.

Adjust the mirror's angle by turning the swivel ball joint.

To remove the mirror from the table or wall, turn the mirror's base in a counterclockwise direction and pull the release table on the suction cup.
