### Product Introduction:

Better performance, Reasonable price: Each pack includes 1 screw lid, 1 extra fine mesh cup for avoiding making a mess when taking out. All the parts are made of stainless steel. Odor & Chemical Free: Easy to clean and dishwasher safe.

Unlike traditional tea ball or twist lid infuser, our tea strainer features threaded connection design that you'll feel easier to open and close when using. Besides it seals more tightly so tea leaves will not leak out during the process of brewing.

Extra fine mesh holes are designed to hold tea leaves, particles or grounds intact while allowing the flavor to drift out.

Extended chains: Fit nearly all the teapots, mugs or cups of different size.

The House Again Advantage: Professional tea infuser manufacturer. Multiple high-quality products for your choice.

Made of food grade stainless steel, anti-rust, great durability.

Brew your loose leaf tea with ease. Now you can replace your old tea bags with this tea steeper and enjoy drinking fresh flavored tea.

These tea strainers are also great to brew coffee, spices and seasonings.
