Detail

About this item

HEAVY DUTY - These chrome tanned cowhide leather laces will not melt from welding sparks or campfires. The shoelaces underwent a chemical process to make them tougher compared to regular shoelaces in the market.

HIGH PERFORMANCE - The leather strips are tanned for superior strength and to stay tied even during active use.

DURABILITY AND RELIABILITY - Great for construction, welding, outdoor walking, running, riding, trekking, hiking, sporting, motorcycle and hunting footwear.

VERSATILE - The laces work great with different kinds of shoes, including but not limited to work boots, men's and women's boat shoes, moccasins, sperrys, red wings, and craft projects of all kinds.

EASY SIZING - Simply lace up your footwear and trim to fit. These leather laces are 54 inches long, so you would not have to worry about not having enough.
