Real Surround Sound

Offering superior 50 mm audio drivers in addition to advanced audio techniques while delivering quality simulated surround sound to enhance each gamer's gaming experience allowing you to be fully immersed and engaged. Also featuring high responsive audio drivers, making it much easier to detect the direction of sounds such as gunfire.

Adjustable Noise-Canceling Microphone

With the features of a convenient omnidirectional noise reduction microphone and 360° pickup, headphones effectively filter noise through the catheter technology, delivering clear, smooth, and accurate sound.

Soft Ear Cushions + Wide Head Beam Design

Our earmuffs are made of breathable sponges with excellent wrapping properties, making them remarkably comfortable. The wide head beam design makes them ideal to wear for long periods of time while the retractable, adjustable smart headband makes it easy to adjust to the appropriate size according to your needs.
