2021 DeMarini Prism -10 Fastpitch Softball Bat WTDXPZP

Game-changing technology for unmatched performance, introducing the 2021 DeMarini Prism+ (-10) Fastpitch Softball Bat. Featuring a 2-Piece, composite design, the 2021 DeMarini Prism+ is built with Continuous Fiber composite allowing for added weight throughout the barrel while maintaining a balanced swing weight for an enormous sweet spot. Gapped Barrel technology allows the low compression outer wall to work hand-in-hand with the even lower-compression inner wall, providing a progressive spring on contact for outrageous pop. An all-new Type V Connection piece is designed to maximize the performance of the gapped barrel technology. At the same time, the Refract End Cap helps generate extreme bat speed and take advantage of the elite performance of the Prism+. One-year manufacturer warranty included. Send pitches out of any park with the all-new 2021 DeMarini Prism+ (-10) Fastpitch Softball Bat available at Bases Loaded: The Baseball and Softball Superstore.

- Gapped Wall Barrel delivers a massive sweet spot
- Continuous Fiber composite offers lightweight, durable barrel
- 2-Piece composite design
- Balanced feel
- Type V Connection designed to maximize performance
- Refract End Cap helps generate extreme bat speed
- 2 1/4" barrel diameter
- (-10) swing weight
- Approved for play in ASA, ISA, ISF, NSA, and USSSA
- One-year manufacturer warranty included
