PRODUCT DESCRIPTION

EASO Water purification and filtration apparatus Whole House Water Sediment Filter - Valve-In-Head Single-Stage Filtration System

- Sediment Prevention - The portable system is certified to reduce sediment, dirt and rust in your water, appliances and plumbing fixtures. Designed to bring you sediment-free water from every tap in your home.
- Easy Filter Replacement - The built-in shut-off bypass valve allows you to change filters without turning off your water supply, and the pressure release button allows for quick, easy filter replacements. Uses universal 2.5 inch replacement cartridges (sold separately.)
- For Stand-Alone Or Combine Use - This Whole House Filter System can be used by itself or with additional portable filtration systems, allowing you to customize your filtration system to fit your home's unique needs.
- Simple DIY Installation - Package includes filter housing, first sediment filter, and housing wrench. No plumber needed.
- NSF Certified - System is NSF Certified to standard 42 for the removal of particulate.

Product description

The sediment prefilter is made with high quality filtration components, as well as an ideal for filtering process deposits larger than 10 microns.

Better water quality

Quickly remove impurities

Replacements made easy

More convenient to use

Attention:

Different families have different pipelines, some metal and some plastic. If it cannot match the threads correctly, go to buy a set of PPR connectors in an offline hardware store will solve this problem.
