Empty & Cubic Audits

Can you squeeze 30% extra occupancy out of your facility, by identifying cubic inefficiencies?

Empty Bin Audit Cubic Space Audit

Optimize your racking with cubic space analysis.

- ✔ See if your racking can be better used by rearranging pallets or consolidating items -- 95% space occupancy could be decreased to 64% occupancy!
- ✔ Save on rent, planned expansions, or headaches from quarterly rushes with the improved space efficiency.
- ✔ Conduct the cubic space audit as a part of routine Corvus schedule, or a standalone audit process.
