

What is PlayPoint?

PlayPoint is the sports social network: Connecting athletes, coaches, and parents in one hub for staying updated on scores, recruiting, and team communication.

PlayPoint not only makes sports easier, but allows users to work smarter and giving them the chance to upgrade their game.

How it works

PlayPoint helps players make the connections that will help them reach the next level.

Build your profile, connect with your friends, join your team. Showcase your athletic profile to your friends, coaches and recruiters and communicate with your team, all in one place.

Keep track of your sports network, give congrats on big wins, check standings and stay in the know.

Our Philosophy

At PlayPoint, we believe that athletics is a place to make a statement not through words, but through action and results.

We provide a platform for players to focus on growing not only as athletes, but as people.

The PlayPoint Network

The PlayPoint Network provides players and coaches the ability to create their personal profiles, connect with their teams, track statistics and build an online presence to showcase themselves and interact within their sporting community.

Follow your personalized feed and keep up to date with your friends, teammates, and competition.

Earn Points & Rewards

Record your team's stats, fight to the top of our leaderboards and win points competing in PlayPoint Challenges on your feed and social media.

Use your points to enter giveaways for rewards from our brand partners or give to charities in need.

Give back with PlayPoint

PlayPoint is committed to helping put an end to sports inequity. PlayPoint is free because all people should have access to the tools they need to improve their game and work smarter at their sport.

If you would like to partner with us on giving initiatives, please contact us at hello@PlayPoint.app

Reimagine your Network

Connect with coaches, teammates, friends, and rivals to build your athletic network to stay in the know. Get alerts for all the big wins, goals and updates to help you keep in touch with the game you love.
