It's perfect. Holds all of my cooking knives. Makes it easy to find what I need immediately without the "searching through the draw" that I used to have to do to find what I needed.

2021-06-24

My mom and I combined households, which means a lot of duplicate kitchen items. My kitchen is very small with minimal storage area. This is the best storage idea for our knives. I bought two to handle the overflow!

2021-05-22

I will not hold that many knives. Fibers will eventually break down.

I was afraid all my knives wouldn't fit in here but it has more room than you think because you are not restricted by slots found in regular knife blocks. I was happy to get rid of my conventional knife block. I fit 6 steak knives in the small area in front and 6 large knives of various sizes in the back along with my kitchen sheers. It's a great product!

SAVE SPACE AND REDUCE HASSLE WITH UNIVERSAL STORAGE DESIGN: Fit any kind of knife into the slotless Knife Block. Our flexible, black plastic rods move around to fit knives of any shape or size into the block at any angle. Stop trying to squeeze knives into predefined slots of a bin or drawer holder - simply insert them in as you please and get back to cooking. Overall dimensions are: 10 inches high by 4.6 inches wide by 7.7 inches deep.

TWO TIERS FOR KITCHEN AND STEAK KNIVES: The extra large top tier has 3.8 inch by 3.8 inch opening, can fit knives up to 8 inches in length, and is suitable for paring, bread

This knife block does not include knives. Knives with blades that are the maximum length or beyond may stick out above the bristles.)

**FLEXIBLE FOOD-GRADE PLASTIC RODS KEEP KNIVES SHARP:** Our BPA free, food grade plastic rods / bristles won't chip or dull your knives. They move around to fit knives when inserted or removed. This design keeps your knives sharp, and won't cause abrasions like traditional slotted wood knife blocks.

**STYLISH BAMBOO CASING:** The outer shell is made of 100 percent finished, eco-friendly premium bamboo, and looks smart and sophisticated in both traditional and modern kitchens. This sturdy, heavy wooden casing won't tip over easily, and keeps both you and your knives safe - no need to worry about exposed blades from metal magnetic strip knife holders.

**EASY TO WASH & CLEAN:** The long black plastic rods are removable - simply push out the block from the bottom. The bristles are easy to clean: they can be hand washed with warm, soapy water. Please avoid heat drying as that will reduce the adhesive affixing the rods together. The bamboo shell should be hand washed; additional polish may be needed after multiple washings.
