

## DR. OURIAN

---

Dr. Ourian, practices cosmetic dermatology by vocation and is a sculptor by avocation-but in Ourian's mind, they are indivisible. "It is the study of human anatomy and the classic art of sculpting that has been the most vital aspect of what has helped me achieve natural, realistic results for my patients over the years."

Whether in his art studio or his medical office, his attention to details is what has made him a master at what he does. "My sculpting and cosmetic work are very similar. It is like a pointillist painting, where many small changes converge into an integrated whole.."

Since founding his clinic in Beverly Hills 20 years ago, Dr. Ourian has become one of the world's most famous celebrity doctor, and his clients include some of the world's most famous people, including the Kardashian-Jenner family, Victoria's Secret supermodels, actors, musicians, and many of the world's royalty.

Pictures of Brad Pitt, Salma Hayek and Lady Gaga adorn the walls of his Los Angeles office, and there are few places in Hollywood that he walks

# FACTS ABOUT DR. OURIAN

---

## 1 20 YEAR CAREER

Dr. Ourian opened his legendary clinic in Beverly Hills over 20 years ago to provide minimal-invasive treatments with surgical results and drive innovation in cosmetic dermatology.

## 2 DERM TO THE A-LIST

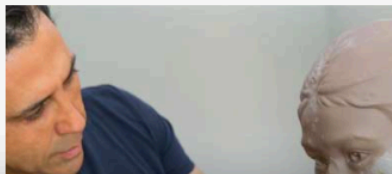

Dr. Ourian's client list is unparalleled. Some of the most beautiful and well-known faces in the world trust Dr. Ourian with their skin; the Kardashian-Jenner family, Lady Gaga, Sophia Vergara to name a few.

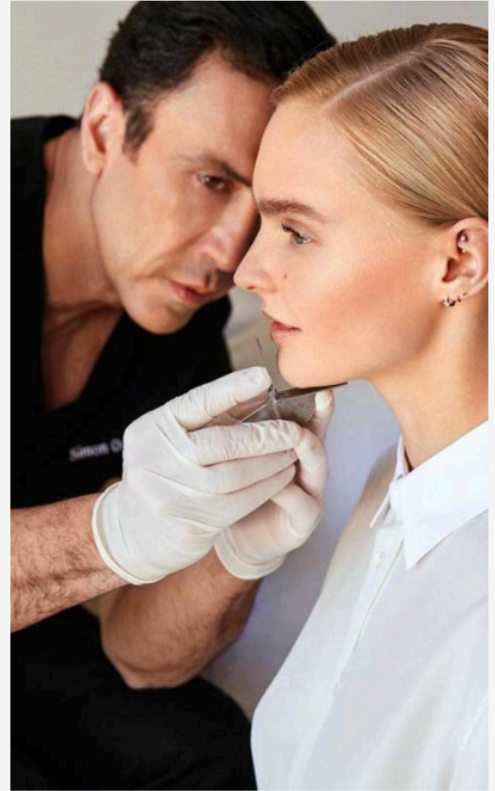

## 3 ENTHUSIASTIC ARTIST

From an early age, Dr. Ourian has been passionate about art and sculpting – which is one of the reasons he has such a unique eye for proportions and aesthetics. He is an active artist and sculptor in his free-time.

## 4 INNOVATOR

Dr. Ourian pioneered Coolaser a revolutionary method to arrest the appearance of aging and has been innovating skincare treatments for decades.

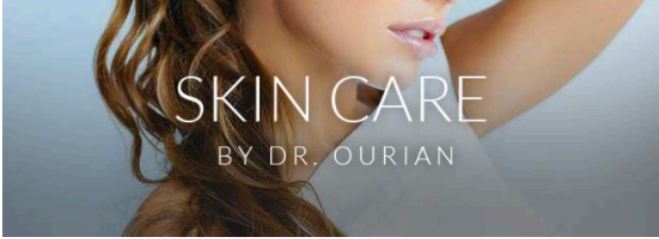

# AESTHETIC COSMETIC DERMATOLOGY

---

Dr. Ourian decided to pursue a career in medicine and was able to combine his two passions, science and art, by re-defining the practice of cosmetic dermatology. To this day, he approaches each client with the eye of an artist and the mindset of a scientist, combining the latest skincare technology with the goal of resurfacing and enhancing the face's natural beauty.
