## Product Description

Product Features:

Made of fireproof and ABS material, non-irritating odor, non-toxic and harmless to humans, only the effect of current, which electrocutes mosquitoes upon contact. The internal grid is fenced with a ABS housing to prevent children and animals from touching the electrified grids inside the device.

Good Quality and 4200V High Voltage:

Electric mosquito killer uses 365 Nm wavelength ultraviolet light-emitting bulb that lures insects in and then immediately zaps them with a 4200V electric shock.

How to Use:

Simply place it on a flat place, or use a ring to hang it on a tree or house wall bracket. Plug it in and wait. For better results, please put your fly traps in areas where flying insects are frequent activity.

For Outdoor and Indoor Use!

The coverage area for this high-powered electric bug zapper more than 1200 sq ft. Ideal for bedroom, living room, kitchen, courtyard, garden, backyard etc. Turn it on three hours before bedtime for best effect. Unique waterproof design, it can be used inside and outside!

Not worth it

Sponsored

Reviewed in the United States on May 3, 2021

**Verified Purchase**

Esthetically - it looks nice but I have left it on in a dark kitchen for two days now and only saw one mosquito in the tray even though we have a lot flying around. I also would have preferred a rechargeable battery instead of a power cord as I do not have a power outlet in my patio area which is where. Wanted to use it. I also didn't like that the shipment contained a 25 gift card if you gave it a 5 star review which now explains why it has a high rating which was influential in my purchase. If they want to give gift cards that's nice but it shouldn't be based on only if you give them 5 stars

Old Goat

**Not very good, do not believe reviews**

Reviewed in the United States on June 11, 2021

**Verified Purchase**

The product comes with an official looking \$25 off for a five star review, so, don't fall for all the great reviews I saw, I sure some were honest opinions, but how many?

The product itself feels flimsy, the drawer is not smooth, and the zap can only kill tiny insects, houseflies just lurk in the tray with a bad attitude then fly out at you when you go to empty the drawer!

**BEWARE, DO NOT TRUST RATINGS, DO NOT BUY**

Reviewed in the United States on July 5, 2021

**Verified Purchase**

BRIBERY has influenced product ratings. Read on! This product arrived well-packaged and intact in new condition. Bug Zapper User Manual and small cleaning brush were enclosed in the box. We followed the directions and left it connected to an active power outlet for 5 nights and days hoping to cut down on the house flies and mosquitos that swarm on our back porch. During that time, not a single flying insect was zapped or trapped-although we killed many with an old fashioned fly swatter. We decided to return the unit.

Although the unit may be defective, it is most troubling that the product box included a pre-printed card that promised a \$30.00 Amazon gift card for submitting a 5 star rating. The card also stated that you should not mention the gift card in your ratings or review OR else your Amazon account could be "compromised"!

### It Works!

Reviewed in the United States on April 9, 2021

**Verified Purchase**

Let me tell you about "no-see-ums", the teeniest tiniest monster gnat! Smaller than a freckle! But their "bite" is most painful - but it's not a bite! The wee monsters spit ACID onto your skin and just sit there waiting to slurp up the sludge, which makes them so easy to kill, but the damage is done and the burn stays...

All the tiniest specs in the picture - those are No-see-ums (aka sand gnat, sandfly, ghost gnat). The picture shows the first 48 hrs of TOMPOL's work in my house after receiving it, and now you know WHY I give it 5 stars!

### Got rid of our flying bug issue

Reviewed in the United States on April 13, 2021

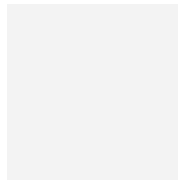

**Verified Purchase**

For years I thought we needed a bug zapper for flies but this year we got these crazy flying things that would swarm into our house and attacked me and one stung or bit me under the eye. That was the final straw and I ordered this zapper.

The first one arrived didn't work but was quickly replaced by one that did. In the picture I dropped the bugs on accidents (windy) but I wanted to show the monster bugs that we are getting. The tray was about half full today but they mostly blew around. Right away when I put this thing on the porch it started zapping before I walked 10 feet. The first few nights the big bug tray was not just full of these things but overflowing. Within 10-20 minutes after hanging up they were not on our screen anymore and I could walk in and out without bugs coming at me. The bugs have started to become less abundant and am so happy I got this. It works on other bugs to. There was even an earwig in this tray today. All sorts of bugs and flies go into it and have made our back porch ours again.

I did put it closer to the back door than recommended but we leave our back porch light on for the

### AMAZING!!!

Reviewed in the United States on May 30, 2021

**Verified Purchase**

Within 10 minutes of plugging this baby in (during the day I might add!), we heard our first BUZZZZZ! Within an hour and many more buzzes, things got quiet! And our house was finally free of flies! They have been out of control INSIDE OUR HOUSE this year. We live in Florida, so we are used to mosquitoes and flies, but it's been so bad! We've tried numerous things outside, but somehow they still come in! We don't leave food out EVER, so it's not like counters etc. aren't clean. They are! But the flies have been driving us nuts! After 4 days, I now just turn it on in the evening for a couple of hours, and I hear several buzzes, then the house is clear. The flies love the light! They come from far and near to investigate it! The machine is quiet until it zaps! But it truly works! There are no chemicals or smells. It's safe to have around -- much safer than having flies buzzing around! I hope it lasts a long time! But for now, it's at the top of the list for "best purchases of 2021!!"

### Simply AMAZING!

Reviewed in the United States on May 28, 2021

**Verified Purchase**

you will not be disappointed. I just moved out to the country and have been working out in the garage late at night. with the weather getting warmer, I've had the garage doors opened and mosquitos, gnats and everything else have been finding there way into my garage, so I had to do something about it. I bought this and hung it next to my garage door opener because there's an outlet there and it is way better than expected. I have dead bees, stink bugs, gnats, mosquitos, and other bugs that I do not know what they are. My 8 yr old son keeps asking me to remove the bottom tray, so he can see all of the dead bugs that got zapped. again, you will not be disappointed, I'm extremely happy I bought this!
