Using the electronic pest control ultrasonic repellent in power sockets, it will start working by low frequency ultrasonic waves. It can repel many kinds of pests naturally and effectively. The coverage area can effectively reach up to an area of 1600 square feet. In various applications, put one in each room. Ultrasonic cannot penetrate through walls and solid objects. It is safe and effective with less power consumption.

Worthless

Reviewed in the United States on March 19, 2021

Verified Purchase

These things are junk. They do not work. Mice continue to run rampant in my home walls, and I have these placed everywhere in my home. Don't buy them. It's a waste of money.

The light!

Reviewed in the United States on February 19, 2021

Verified Purchase

I still see walking in my house like it is their house. Not worth it. The light look beautiful at night. At least it works for something.

Simple, but not crazy about the strange blue light

Reviewed in the United States on January 19, 2021

Verified Purchase

The light is a nice thought on these, but I would like to have one in my bedroom and the kids bedroom and don't want the added light when we sleep. They are absolutely silent. It's winter so I am not sure how well they will do when ant-season hits, but hopefully they will keep the ants and spiders away.

Product is very easy to use, you just plug it in. I have seen any bugs in the rooms where I installed the devices so that's good. I like that it also functions as a night light and that the design is kind of stylish. I have had it long so I don't really know how well it works yet.

Will update!

Very disappointed! Website info did not match the manufacturer's info so I returned them & bought a similar product for 1/3 the cost! Would like to point out that the ultrasonic frequency is standard and the night light does not have the ability to turn off

Reviewed in the United States on February 1, 2021

Verified Purchase

I like the light on them and that they are not as big and bulky as another brand that I have bought in the past. I am excited to see how these help with box elder bugs in the summer and spiders in the basement. For now, they are helping with mice. They do not bug my animals at all.

TOO EARLY TO TELL!

Reviewed in Australia on December 5, 2020

Verified Purchase

Firstly, I was disappointed that I was sent the Americanised version of the electronic plugs, so I had to go purchase to conversion plugs for Australian power points. These cause the pest plugs to become a little chunky if you have double power points, so you have to remove the pest plug to be able to use the other side of the power point. A bit of a pain if you don't have a lot of power points in the area! The light it's too strong so it doesn't keep me awake at night and it doesn't make noise. I have noticed that there are less bugs in the bungalow, but still get a few. Will monitor as have only 2 electronic plugs in the bungalow and the other 4 are in the main house. May need to buy another pack. So far I am fairly happy with the early stages of performance.

DON'T WASTE YOUR MONEY

Reviewed in Australia on November 2, 2020

Verified Purchase

DON'T WASTE YOUR MONEY!!!

These products are useless if you live in Australia, firstly they come with American plugs so you have to spend more money on converters and secondly once you've done this they don't work! I've had them now for nearly 4 weeks and there's been no difference in the amount of mozzies etc.

Indecisa.

Reviewed in Mexico on July 20, 2021

Verified Purchase

Vivo en un lugar con gran problemática de nosotros ademas de otra índole de insectos, pudo decir que no estoy completamente satisfecha del producto aunque pareciera que la cantidad de moscos es medianamente menor a la que he experimentado en tiempo pasado.
