WindowExpress

WindowExpress is the powerful quoting application that handles all your ordering needs. Create quick, accurate, and professional-looking quotes for your customers. Send orders securely and electronically directly to Associated Materials. Contact your Associated Materials sales or customer service representative with questions or to request set up.

Hardware Requirements for End-User Machines

• Processor: recommended Intel "Sandy Bridge" core i3 or later architecture (or equivalent)
• Windows 7 Home or later
• 4GB RAM minimum, 8GB recommended
• 10GB of free drive space; 15GB+ recommended
• NET Framework 3.5 and .NET Framework 4.5.2
• Anti-virus exceptions may be necessary
• High speed Internet access (minimum 512kbps upload speed)

Save Time on System Updates

WindowExpress receives monthly updates to ensure the most accurate pricing and products are available. Install Base Camp to automatically run your updates. This time saving software will run in the background 24/7 and ensures your system is up to date.
