product description

Why choose us?

Get their attention

This challenging fishing game and water toy is suitable for children 3 years and older, keeping them away from screen time. Those who want to become anglers will have endless fun because they throw fishing rods into bathtubs, children's pools or water tables, and then drag out a fish or other brightly colored marine life. Each fishing rod for children is equipped with a working reel and a line with magnetic bait. There are 30 plastic fishes of various charming colors, just waiting for young people to come ashore and show off their harvest of the day.

Develop lifelong skills

In addition to being a fun pool toy or bath toy for young children, magnetic fishing games also help to develop strengths and skills to ensure their continued success. When children throw poles and scan the water, they will gain better balance, hand-eye coordination and upper body strength. They will also learn the names of fishing equipment and be able to identify starfish, seahorses, lobsters, sharks, etc.

Open all year round

Even if the weather is too cold for outdoor fishing, BOTWXF children's fishing games will continue to attract small fishermen. Fill the bathtub with water, add colorful marine life, and watch your child catch pink, blue, orange, yellow, red, and green fish. With 2 poles. After that, fold the fishing rod to 7.5 inches long, put all the fish in the attached net bag, let them air dry and prepare for another day of fishing and release of fun and learning.
