Very affordable pour spout and aerator. Came in a two pack which is nice because these don't last forever. The material is not super heavyweight but I am guessing I will get a year or more out of each which is sufficient at this price point. Arrived promptly and nicely packaged.

I ordered several sets of these as gifts and they work extremely well. They also keep the red wine from dripping when poured, which I love! They do make the wine pour slowly, but that's part of the aeration process. The "gift box" is nothing fancy. Each aerator is individually wrapped, with two inside each small box. They fit well inside the wine bottle, with a rubber lining to stay put when you pour. Would buy these again!

These little dudes are so worth their weight. I bought them to "fluff" the wine I was serving at my wedding and they more than did their job. The taste difference between just pouring a glass and using one of these aerators (for me) is amazing. The crisp and lightness provided by aerating your wine "will make a difference, and these did a great job. I will be ordering more to gift out.

These wine aerators are FABULOUS! I do wine demos for different wineries and I don't always have time to let a bottle of wine breathe properly before a demo starts. They greatly enhance the flavor and it makes all the difference in the world. My sales numbers increased greatly. And you can't beat the price!
