PAIR OF PARING KNIVES: The compact size perfect for picnics, lunch boxes, and more. Set of 1 ensures you always have a paring knife available, even if one is in the dishwasher. Paring knife is perfect for slicing small fruits, cheese, and more.

COMFORT GRIP HANDLE: Contoured handles for secure grip, making these knives perfect for peeling and dicing fruits and vegetables. Ergonomic handle makes the knife comfortable in your hand, and the non-slip grip makes it easy to handle tricky cuts.

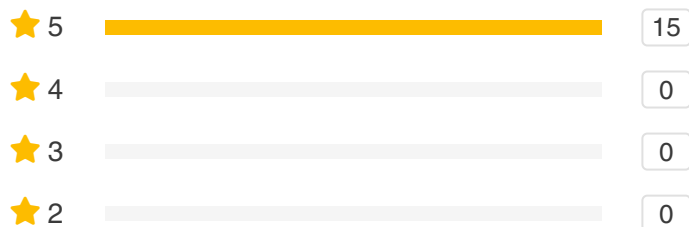

HIGH-CARBON STEEL: Super sharp high-carbon stainless steel is durable and lasts for years. Paring knife is perfectly sized for precise, detailed cuts; the sharp blade pierces even the toughest skins of tomatoes, apples, and other fruits and veggies.

PROTECTIVE BLADE COVERS: Knives store safely in protective blade covers. Cover blades between uses with the durable knife cover. Protect the blades and unsuspecting hands from damage. Slide the blade into the knife sheath to prevent accidental cuts.

Best inexpensive paring knives

Lightweight, thin, slicy blade, victorinox dependability and stainlessness. Holds an edge better than most other paring knives you'll find easily up to double the price point.

Wonderful knives

I've been wanting some pairing knives in my kitchen and these are easy to hold, lightweight, and very sharp! I wish they came in other colors though.

Best paring knife ever

The best paring knife I have ever owned. Watched a review of this knife on America Test Kitchen and so decided to buy it. It has lived up to every expectation.

These knives are very high quality, very sharp and well balanced. I had purchased another brand with metal handles that discolored when washed. I was concerned about these having plastic handles, but these are well balanced and easy to hold and use. The blade is VERY sharp and we are very careful wh [...]

I was expecting better packaging for this good brand but it came with just wrapped with plastic envelope. Other than that the knives are very sharp and easy to use.
