

The Performance Learning Platform

Founded on learning science, UMU's AI-enabled platform empowers training leaders and educators to drive performance and results.

Get started today

How it works

Your complete blended learning toolkit

Rapid authoring

Create microlearning, assessments, practice activities, and more. A coursebuilder that is so intuitive, anyone can use it!

Powerful engagement

Engage your learners with gamification and social interaction woven into your content. Foster the community and connections that make training stick.

Continuous learning

Pre-work, reinforcement, live interaction, and self-paced content all in one place. Make daily learning a part of your organization's culture.
