ADORNED®

CLP Jewelry
GET ``ADORNED®``!

One of the most popular items we sell in our store is not something you can ask to see from a case, nor can we ship it straight to your mailbox. It's an experience! We call it Adorned® and here's how it works. Every week or so, we 'pop up' with our special Adorned® machine. On this machine we craft our line of welded infinity jewelry. Delicate (and not-so-delicate, depending on how you roll) chain is permanently welded together to grace your wrist — and now fingers, too, with our new line of Adorned® rings — with jewelry that is always with you! We offer oxidized sterling silver, and 10, 14 or 18k yellow or rose gold. You can elect to add options like alphabet charms to remind you of loved ones, and diamonds, sapphires or rubies for a little sparkle all your own.

Make a day of it when you come. It's always a party! Have a glass of Lambrusco, cuddle with the shop dogs, and take in our collection of jewelry, art, found objects, and curios while you wait for your turn with the welder at the machine. We guarantee once you have one, you'll come back for more. Good news, we pop up at galleries and boutiques around Denver, Boulder and the state as well. You can even host your own Adorned® party. Inquire at clp@clpjewelry.com.

In the meantime, be sure to join our mailing list here to find out when we're popping up in-store or near you next!

*Prices start at $58.00 for sterling silver.
