#### **Product description**

2-inch x 30 feet Yellow High Strength Polyester Strap

10,000Lb Break Strength Capacity - Actual Rated Capacity of webbing

5,000Lb Recommended Vehicle Weight

Safety Rating to accommodate for jerking, stuck vehicle, angle of tow, friction, etc.

3,300Lb Working Load Limit

· Safety Rating Industry Standard 3:1 Ratio for lifting objects vertically.

· Includes 2 forged safety hooks with retaining clips, ZINC coated finish on hooks offer three times more corrosion resistance

High Strength Polyester Strap

2-inch x 30 feet

This high strength towing strap will make easy work of recovering you stuck or broke-down vehicle. Featuring quick snap-on safety hooks on both sides, you can have this strap fitted up in not time. The hooks feature safety clips to keep themselves attached while towing. With 30ft of strap you will have plenty of slack to get to vehicles stuck down hill or other precarious places.

Tow strap heavy duty

PLEASE BE AWARE OF RECOMMENDED SAFETY CAPACITIES

10,000Lb Break Strength Capacity - Actual Rated Capacity of webbing. This is the weight that this strap has been tested to be able to withstand

5,000Lb Recommended Vehicle Weight - Safety Rating to accommodate for jerking, stuck vehicle, angle of tow, friction, etc. When pulling a vehicle, you may be going uphill, or have flat tires, or the vehicle may be stuck. This means a vehicle that weight 5,000Lbs is actually putting 9,000Lbs of stress on the strap during certain situations.

· 3,300Lb Working Load Limit - Safety Rating Industry Standard 3:1 Ratio for lifting objects vertically. This is a industry standard safety rating which states if you are lifting objects vertically with this trap you should only lift 1/3rd the strap's capacity.
