RDTYT playpen for babies,Playpens for Babies, Extra Large Playard

The shipping was fast , it took me 15 minutes to put everything together, and all kids had fun in the baby play yard right away, including my 6 months old little girl. She was refused to stay in the small baby play yard alone before , now she can have fun with two older brothers in this big RDTYT baby playpen. It is big as a full size bed , more stable than the other plastic playpen, won't fall and get hurt . We have hard wood floor , so we need a foam playmat , it comes with one without extra cost. It also comes with 4 colorful hooks so my 6 months old baby girl can grab and stand , my boys said they would like to give this product a big thumb up !!!

RDTYT playpen for babies,Playpens for Babies, Extra Large Playard

This is by far one of the most useful baby items I have at my house for my six month old niece. I love that it is large enough for her to move around and play, but it also keeps her contained and out of things that she should not be into. She loves playing in it it has a really nice comfy mat For her to sit on, the sides are mesh and breathable. When I need a little time to clean around the house I don't have to worry about her safety when she is in this pen. Often we will just keep the door open on the playpen and she can come and go as she pleases. It's super easy to pack up and transport outside. It keeps her off of the grass but she's able to still be outdoors and enjoy the day with us. I like that she will be able to use this for years to come, it is super useful and convenient. Easy to wipe down and keep clean as well.

RDTYT playpen for babies,Playpens for Babies, Extra Large Playard

Delivered very quickly. Initial unpacking was a bit intimidating. There are several components involved in assembly(3 different sizes bars and 2 different elbow and connectors). Once I started assemble it, the while process took about 20 minutes, so very easy. The mattress included is double sided and water proof. The mesh wall is safe for little ones. Keeps little ones from getting into anything you don't want. You have to completely disassemble, it doesn't fold up like a pack n play to fit in the bag. So don't assemble in a room if you don't want it in that room.

RDTYT playpen for babies,Playpens for Babies, Extra Large Playard

This is my second playards for my 9-month old girl. I had to lay one in living room and another one in master bedroom to ensure that she stays safe while I'm busy. This playard has an almost exactly the same look as the first one, but cheaper and came with more stuff. It came with a mat and toys hanging on the playard. The spacious room was great for the baby that she can practice crawling a lot in general, this is definitely a great value product that I highly recommend.
