big-autoparts Metal bottle cap,Silver Oxygen Barrier Crown Caps

I bottled a bunch of home brew using these caps. I have a lever-style capper, and they went on easily - almost too easily compared to some other caps I had - so I was a little worried they weren't sealing correctly. But I need not have been concerned. They work great! Perfect seal, no loss of carbonation in my home brew. I will definitely buy again.

These are difficult to find without going to specialty brew stores. I used them with our homemade wine bottles. They are of excellent quality.

As this is my first experience capping bottles i will say that as far as i know these caps work great. I just capped 12 beers without one cap failing to preform.
