

ABOUT US

Unfortunately, more and more people across the country are becoming victims of package theft. Porch pirating is an increasing problem that affects individuals and business across the country. The Package Holder is here to give you a sense of security and peace of mind for your parcels, serving as your secure location for your everyday deliveries in Twin Cities and surrounding areas. We want to provide a safe space in the Twin Cities for anyone wanting safety measures in keeping their deliveries protected. The Package Holder will be launching soon.
