Description **Reviews (0)**

- Upgrade Grow Light with Stand--Stable tripod (extendable from 15in to 60in) with functional lights and 360-degree flexible gooseneck, solved the trouble of setup and inflexibility of traditional hanging grow light, and also provide a much wider coverage area than clip grow light.
- Great Efficiency Full Spectrum--FEEL SHOW 4-head plant lights provide 3 supplemental light modes: 1--Red(660nm)+Blue(460nm): promote photosynthesis, rooting, germination, blooming, fruiting. 2--Warm White, 3000k high uniform light, similar to natural sunlight. 3--Red+Blue+White (380nm-780nm), universal full spectrum grow light for plant indoor grow, succulents, rose, hibiscus, petunia, clematis, strawberry, lettuce, butterfly orchid, lemon tree, etc.

- Dual Control & Multi-Functional--Both line-in controller and RF controller (protect your eyes from looking at the lamps directly). Support 3 light modes, 10 dimmable levels, 4 lights independent control, auto on/off every day after setting the 4H/8H/12H timer. 80 effective LED Beads, provide brightness of 80W fluorescent lamp, consumes only 15W of electricity.
- Scientific Heat Dissipation Design--Our indoor plant growing lamps are backed by an aviation-grade heat sink and excellent aluminum shell. This improved design will protect the grow lamp bulbs not very hot, which is important to reduce light loss and extend bead life to more than 50,000 hours, and also without burning plants.
- Buy with Confidence--24 months warranty, 90 days return/refund guarantee with FCC, CE, RoHS certified support. Our Plant Grow Light Kit is perfect for flowers and vegs especially when raining, snowing, cloudy days and dark indoor. You'll also get a detailed User Manual with Operation Approach and advice on how to grow plants, useful product for planting enthusiasts!
