

About Us

ABOUT US

Cypher Vehicle Design was started by die-hard Porsche owner Michael Cypher. Coming from a long line of car enthusiasts, craftsmen, & designers - he has always looked at cars through a passionate, engineering & design-eye lense.

Having owned water cooled 911s most of his life - he has been quite focused on making them tastefully and purposefully better by borrowing from the best of the past and the best of the future - while still respecting the original masterpieces.

All of the products listed on this site have been personally tested on his vehicles and made sure of their quality, function, and that they are made by amazing teams. Overall, he would love to share the best and some of the most unique parts for others to elevate their own cars.

We are a Custom Manufacturer of Automotive Parts.

Having customers from around the world - we always try to get back to you in a timely manner. Best way to reach us is by email or on Facebook Messenger.

PRODUCTS THAT ARE "COMING SOON" or PRE-ORDER

If you see some products that are "coming soon" or pre-order - just add them to cart and purchase them at the latest price (often FREE). Then, once available - Cypher Vehicle Design will email you to confirm exactly what you want and then send you a new invoice for the actual price. It's the way to get on the waiting list.
