

Exell Batteries: Powering Yesterday, Today & Tomorrow. Proudly Made In America

[View Our Products >](#)

At Exell Battery, our company goal is to become an industry leader in offering quality product assortments that include many of the hard-to-find, obsolete batteries models from yesterday's devices and equipment. We are one of the few battery companies assembling Eveready replacement products in the United States. Our assortment include many hard to find batteries that power many devices such as meters, flashes, radios, microphones and many other devices.
