ROCK LOBSTER

\$18.00

So pretty and so punk-rock. A bold and beautiful red reminiscent of all the sexiest stuff in history... and lobsters.

- Creamy Vegan & Cruelty Free Formula 5 oz tube
- Botanically Infused with Natural Sunflower Extract
- Ammonia Free, Formaldehyde Free, Peroxide Free, PPD Free

PRO TIPS

INGREDIENTS

What does it do?

Our semi-permanent hair dye line combines salon-grade pigments with a nontoxic, conditioning formula that deposits ultra vibrant color. Semi-permanent hair dyes do not damage the hair, in fact they're super conditioning! GDY's formula combines a high-quality cream base, like a hair mask with essential oil benefits. The color is deposited on top of the hair shaft and acts like a stain that will fade out over time each time you wash your hair. Color can last anywhere from 4-6 weeks. We recommend using color protecting hair care like our [GDY Color Kind Line](#) to keep color vibrant longer.

What does it smell like?

Fragranced with Bergamot essential oil, our semi-permanent dye has a light citrus scent that is mood lifting.

Is this for my hair?

Our semi-permanent dyes will show the truest color on pre-lightened hair, levels 8-10. We recommend using our [Lightening Kit](#) to get the perfect base shade for your color.

What to know?

Semi-perm is a thick, conditioning formula, no need to mix with a conditioner.

Color payoff will vary based how much hair is lightened as well as on the porosity of the hair and underlying hair chemistry. We recommend a hair strand test to determine color payoff.

Safe on:

All hair textures, pre lightened, chemically treated, keratin treated, and color treated hair.

Didn't leave a residue

First time trying good dye young and chose rock lobster to dye the bottom half of my hair that's shaved. Absolutely love it! It's so bright!!

First time trying good dye

I love it! It's still in the bottom of my hair, not too faded(which has grown out over the past two years) I have more and plan to dye it tonight. I love it. Next time I'm going blue. My mom loves your hair dyes, too.

I love it It s

I recently got the Rock Lobster and let me just say, it's the perfect red!!!! I have been wanting to have my hair this color red for so so long-years even! I had gone to so many salons and asked for this type of red and none of them seemed to get what color red I had wanted and it never came out...only a pink color. Not until Good Dye Young was cr...[Read More](#)

I recently got the Rock

second time dyeing my hair! i'm very sensitive to smells and have many allergies to plant products so i was a bit worried about using this, but it's worked out really well. there's virtually no smell for the dye and the bleach isn't overpowering either. although my natural hair is dark and curly, it turned out the perfect shade of red and is fading...[Read More](#)
