**HOW TO USE**

**PRO TIPS**

**INGREDIENTS**

**What does it do?**

Our semi-permanent hair dye line combines salon-grade pigments with a nontoxic, conditioning formula that deposits ultra vibrant color. Semi-permanent hair dyes do not damage the hair, in fact they're super conditioning! GDY's formula combines a high-quality cream base, like a hair mask with essential oil benefits. The color is deposited on top of the hair shaft and acts like a stain that will fade out over time each time you wash your hair. Color can last anywhere from 4-6 weeks. We recommend using color protecting hair care like our [GDY Color Kind Line](#) to keep color vibrant longer.

**What does it smell like?**

Fragranced with Bergamot essential oil, our semi-permanent dye has a light citrus scent that is mood lifting.

**Is this for my hair?**

Our semi-permanent dyes will show the truest color on pre-lightened hair, levels 8-10. We recommend using our [Lightening Kit](#) to get the perfect base shade for your color.

**What to know?**

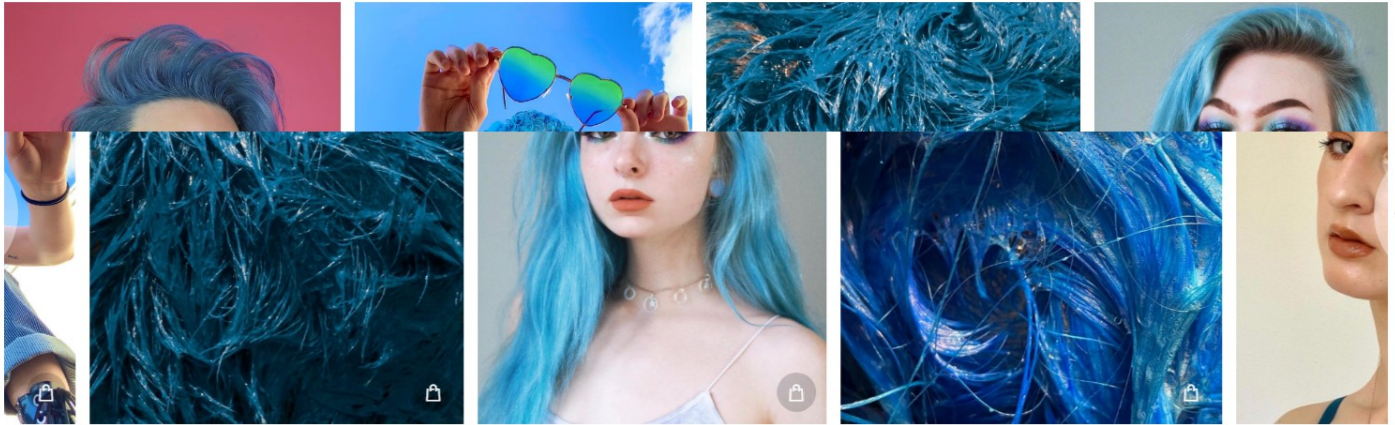

Semi-perm is a thick, conditioning formula, no need to mix with a conditioner.

Color payoff will vary based how much hair is lightened as well as on the porosity of the hair and underlying hair chemistry. We recommend a hair strand test to determine color payoff.

**Safe on:**

All hair textures, pre lightened, chemically treated, keratin treated, and color treated hair.

**i love it it smelled**

I recently tried out Sky High and really love it! Like the other GDY colors I've tried, it smells really nice and makes your hair feel great (especially after bleaching). I've never tried out pastel colors so I was unsure how the color from the tube would translate to hair, but it was true to the color shown in the photos. After using up the rest ...[Read More](#)

**I recently tried out Sky**

I LOVE this color! I've been wanting to do a pastel for a while (and wanting to try GDY), and I finally got around to it over the holidays. It turned out PERFECT! I'm not the neatest when I dye my hair, but this came off of my skin super easily, and the bathroom clean-up afterward was a breeze. And the smell is divine thanks to the bergamot oil, u...[Read More](#)
