### HOW TO USE

### PRO TIPS

### INGREDIENTS

#### What does it do?

Our semi-permanent hair dye line combines salon-grade pigments with a nontoxic, conditioning formula that deposits ultra vibrant color. Semi-permanent hair dyes do not damage the hair, in fact they're super conditioning! GDY's formula combines a high-quality cream base, like a hair mask with essential oil benefits. The color is deposited on top of the hair shaft and acts like a stain that will fade out over time each time you wash your hair. Color can last anywhere from 4-6 weeks. We recommend using color protecting hair care like our [GDY Color Kind Line](#) to keep color vibrant longer.

#### What does it smell like?

Fragranced with Bergamot essential oil, our semi-permanent dye has a light citrus scent that is mood lifting.

#### Is this for my hair?

Our semi-permanent dyes will show the truest color on pre-lightened hair, levels 8-10. We recommend using our [Lightening Kit](#) to get the perfect base shade for your color.

#### What to know?

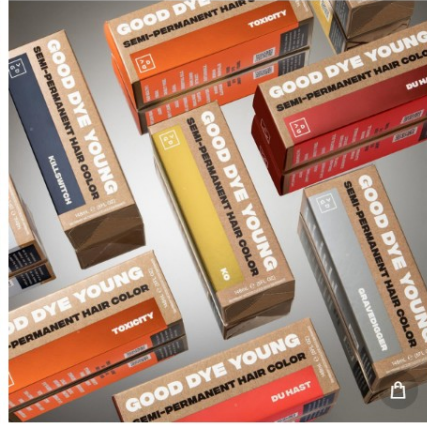

Semi-perm is a thick, conditioning formula, no need to mix with a conditioner.

Color payoff will vary based how much hair is lightened as well as on the porosity of the hair and underlying hair chemistry. We recommend a hair strand test to determine color payoff.

#### Safe on:

All hair textures, pre lightened, chemically treated, keratin treated, and color treated hair.

### Absolutely gorgeous color as long

Absolutely gorgeous color as long as your hair is lightened enough. It doesn't bleed as much as like the reds and other colors do. Absolutely love it

### Finally! A life filled with

Finally! A life filled with greys. Keeping me classic cool until the day I die. I've worked my way through the rainbow, and now my head can match my depressingly black wardrobe.

### The grey didn't hold as

The grey didn't hold as well as expected and did 3 rounds of color 30 minutes a piece and it was ok. It sorta seemed to come out green after washing it a bit and I'm continuously using purple shampoo to curb this. I think you should pair this with a little bit of black and it would look sick

Hey there David!

Thank you for your review of Gravedigger! We're so sorry it didn't work out how you were hoping. Using purple shampoo is definitely great advice for maintaining an ashy-blonde, gray look!

xx Hallie from GDY

**The color was pretty disappointing,**

The color was pretty disappointing, and even worst after two washes it turned blue.

**beautiful grey !**

i love this shade of grey so much. i lightened my hair to level 10 where i wanted the grey, and it took beautifully. straight out of the tube it looked like liquid silver, it was SO cool!
