DESCRIPTION

What does it do?

Our semi-permanent hair dye line combines salon-grade pigments with a nontoxic, conditioning formula that deposits ultra vibrant color. Semi-permanent hair dyes do not damage the hair, in fact they're super conditioning! GDY's formula combines a high-quality cream base, like a hair mask with essential oil benefits. The color is deposited on top of the hair shaft and acts like a stain that will fade out over time each time you wash your hair. Color can last anywhere from 4-6 weeks. We recommend using color protecting hair care like our [GDY Color Kind Line](#) to keep color vibrant longer.

What does it smell like?

Fragranced with Bergamot essential oil, our semi-permanent dye has a light citrus scent that is mood lifting.

KEY BENEFITS

FREE FROM

HOW TO USE

PRO TIPS

INGREDIENTS

Is this for my hair?

Our semi-permanent dyes will show the truest color on pre-lightened hair, levels 8-10. We recommend using our [Lightening Kit](#) to get the perfect base shade for your color.

What to know?

Semi-perm is a thick, conditioning formula, no need to mix with a conditioner.

Color payoff will vary based how much hair is lightened as well as on the porosity of the hair and underlying hair chemistry. We recommend a hair strand test to determine color payoff.

Safe on:

All hair textures, pre lightened, chemically treated, keratin treated, and color treated hair.

★★★★★

a great true copper orange.
a great true copper orange. almost natural. I'm sure in a few washes it will fade to a natural hue.

★★★★★

I anticipated more orange like
I anticipated more orange like the photos but it's a perfect copper! As always with GDY, my hair felt smooth and healthy after dyeing it. The vibrancy is the same after several washed still!

★★★★★

I love this color !!
I love this color !! I mixed it with duhast and put it on over very faded riot and steal my sunshine. It was the exact mix I wanted to give a slightly less neon, more autumn color. Also it smells incredible
