PRODUCT DESCRIPTION

SPECIFICATION

Fully Open Size: 18.90inches * 9.84inches/250mm

Closed Size: 2.56inches * 9.84inches/250mm

Adjustable Height Range: From 2.56 to 18.90 inches. 12 positions can be chosen

Material: Modified Plastic

HIGHLIGHTS:

Newly designed Fish scale structure thickens the clasps/snap joints to make the stool more sturdy. Benefitting from the structure, the scales interlamellar gap is only 0.1mm, which effectively prevents the stool wobbling and makes the stool body tighter and more compact.

Factory Test: Numerous loading tests have been done showing our stool's static load can reach 570lbs at most and dynamic load up to 400lbs. You can see how sturdy it is.

The selected material not only gives the stool high performance, makes it durable against all kinds of weather and using environment, but also makes the body surface glossy and beautiful.

The retractable stool is portable, lightweight, small and compact to put into your luggage or place in your room.

HOW TO USE:

Step 1: To open, grab the ends and pull apart to your desired height.

Step 2: Twist clockwise until clasps click into place to lock the height.

Step 3: To unlock the stool, grab the ends, slightly pull apart and twist counterclockwise.
