Product Details

DESCRIPTION

Large glass panels rarely come with handles. Use these suction cups to safely lift and remove glass and display assemblies from devices.

We specifically built these suction cups for iMac repair. For years we struggled with finding a reliable source for quality suction cups, so we bit the bullet and engineered our own. The specially formulated rubber foot sticks stronger and longer.

Includes two 2.25" diameter suction cups used for lifting display glass off Aluminum iMacs—or anything else that needs heavy duty lifting. A must-have for any iMac repair.

SPECIFICATIONS

Dimensions: 3.2" x 3" x 4" / 8.1 x 7.6 x 10.2cm

Charles Meitin

★★★★★ **If you make your own iPhone, iPad repairs, BUY THIS.**

Heavy-Duty Suction Cups (Pair) | New / iFixit
July 30, 2021

The small suction cups in other kits suck. Bought this for my iMac, ended up having to use it for my iPhone & iPad. Great holding power and gripping leverage.

David Henderson

★★★★★ **NOT a luxury. These are a NECESSITY!**

Heavy-Duty Suction Cups (Pair) | New / iFixit
July 15, 2021

This product is a must have for anyone wanting to repair a screen on a MacBook. Other suction cups don't hold long enough or strong enough to remove the glass from the back case. These work remarkably well and I highly recommend them!

Heavy-Duty Suction Cups (Pair) | As-is, not tested / Discontinued
