Description

1. Hand blown boric acid silica gel glass with high transparency and high temperature resistance.
2. Adopt double-layer design, heat preservation and heat insulation. The insulating glass can withstand temperatures from -30°C to 400°C! You can enjoy your coffee, espresso, cappuccino or hot tea for longer.
3. When you drink hot coffee, you will not feel very hot outside, and when you drink cold drinks, there will be no condensation on the glass and on the table.
4. Unique double-layer glass design, using heat-resistant and double-layer glassware to keep your fingers safe and cool, and to keep the drink warm without being scalded! The outer surface always feels comfortable to the hand.
5. It is more heat-resistant, more transparent, thinner and lighter, but it is more durable than ordinary glass. It is safe for dishwashers and microwave ovens.
4. The cup is round, smooth and round, and the upper lip is comfortable.
5. A unique gift for coffee lovers in your life.
