

BARRICADE® II

FIRE BLOCKING GEL

INFORMATION FOR USE:

Barricade is a liquid fire blocking gel concentrate designed for use by dilution with water for fire suppression and/or exposure protection. Barricade may be mixed from 1% to 5% as needed for a particular application. See technical bulletin for more information.

Shake well every 6 months and vigorously before use.

STORAGE TEMPERATURE:

Minimum 35° F., Maximum 120° F. (1.7° C to 48.9° C) Protect from freezing. Store out of direct sunlight.

CAUTION:

Spilled liquid very slippery. Clean up with water. Concentrate may cause skin and eye irritation. Flush with water.

IMPORTANT NOTICE TO PURCHASER:

The statements, including all descriptions of products and methods, test results and suggestions, contained in Barricade technical data sheets are provided for your consideration only as general information reflecting Barricade's experience with its products and are not to be construed to constitute any representation or warranty, expressed or implied, by Barricade. Users assume full responsibility for determining the appropriate application of any product, method, or suggestion and for adopting such precautions against damage to property or injury to persons as are necessary or advisable under the circumstances of use. No warranty for fitness for a particular purpose is made. No statement contained in Barricade technical data sheets is to be construed to constitute the permission, recommendation or encouragement of any use of application that may infringe on any patents now or hereafter in existence.
