Made from recycled water bottles, this convertible backpack can easily switch from backpack to briefcase. So, you'll have multiple carrying options while helping reduce your carbon footprint.

FEATURES

- Made from 24 recycled water bottles
- Converts from backpack to briefcase
- Shoulder straps can be tucked away when not in use

[More Features](#)

Overview

Made from recycled materials inside and out. Using fabric woven from recycled water bottles, 24 to be exact, the 15.6" Cypress Convertible Backpack with EcoSmart® is thoughtfully designed to protect your work essentials while protecting the environment.

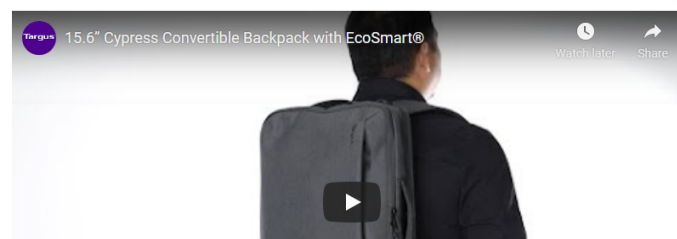

Built to fit 15.6" laptops, this eco-friendly bag's unique design lets you carry it as either a backpack or briefcase, with shoulder straps that can tuck away when not in use. Other features include a dedicated padded compartment to cradle your laptop, two main compartments with pockets to organize your files and everyday essentials, ergonomic shoulder straps to make your commute more comfortable, and a trolley strap to attach the convertible backpack to rolling luggage.

The changing demands of the modern workday require an equally adaptable set of accessories. A backpack built to protect and easily carry your laptop and gear is essential. The Targus Cypress Convertible Backpack with EcoSmart® combines high-end eco-friendly materials with a durable shell built for ergonomic comfort and functionality.

As a convertible laptop backpack, the Cypress Convertible Backpack represents the next generation of adaptable accessories. An innovative dual-compartment layout with a quick access pocket seamlessly integrates with a mobile workflow. A simple conversion from backpack to briefcase makes it a perfect fit for any workplace. The luggage pass-through trolley strap makes travel a breeze. This convertible backpack also keeps your computer safe with its padded laptop compartment.

The resilient build of the Cypress model convertible laptop backpack is unique in its incorporation of EcoSmart® technology, embedding GRS-certified recycled plastic materials from 24 plastic bottles, stitched into the bag's fabric for unparalleled durability. According to [National Geographic](#), about eight million tons of plastic waste escape into the oceans every year. In response, this premium laptop bag is friendly to the earth and perfect for the thoughtful innovator.

A convertible backpack is a vital piece of equipment for the modern innovator imagining a better world, and eco-forward choices are truly fitting for professional trailblazers. Explore our full selection of [eco-friendly bags](#) and the full offerings of the [Cypress collection](#) at Targus.

THE BOTTLE REBORN

This bag was designed with the environment in mind. By using GRS-certified recycled materials, 24 plastic bottles were kept out of our waterways and landfills, shredded into small flakes, re-polymerized into plastic chips, then heated and spun into yarn that was stitched and sewn into the fabric of this EcoSmart bag.

Convertible Design

Uniquely designed for multiple carrying options, this bag can either be worn as a backpack or carried as a briefcase. Offering both top and side carry handles, the convertible bag also has shoulder straps which can be tucked away when not in use.

Ergonomic Comfort

To make your everyday commute more comfortable, we've incorporated a few key perks, including ergonomic shoulder straps, an air-mesh padded back panel to keep you cool, and a trolley trap to easily attach the backpack to rolling luggage.

Backpack Versatility

My husband enjoys the versatility of this backpack. He can carry it or put it on his shoulder. He likes the versatility and the backpack is durable for his needs.

Excellent backpack

Great backpack. My grandson uses it for his Playstation 4. It is padded for the extra protection.
