- Ventilation holes for air circulation help prevent the gathering of saliva
- Lateral curve of the nipple evenly distributes the tongue's pressure against the palate

PRODUCT DESCRIPTION

Finally, a nipple with a soothing baby and parents! Eueasy soft silicone orthodontic comfort is a 100% silicone integrated pacifier, not just for appealing, but also for clinical development, available for comfort, breathing and orthodonticity. The exclusive nipple set helps advance the baby's tongue to maintain an open airway and support physiological breathing. Physiological breathing is particularly important during sleep. It improves sleep quality, lowers irritability - better baby and you! The unique angle of the nipple and the lateral curve are evenly distributed in the baby's tongue. Tiny ridges and silted nipple shape guides the appropriate tongue placement. These important functions are together, support your baby's strong taste and teeth. For the comfort of the baby, the nipple is made of soft silicone, satin fabric, to help keep the PACI in the infant, soothing soothing. A plurality of vent holes promote air circulation, which helps reduce water stacking on the soft and sensitive skin of the baby. In addition, there is an easy-to-grip handle that can hold any baby or parents.

Eueasy Pacifiers for babies 100% Soft Silicone One Piece Pacifier for – WisTSLead
