Description

Product Introduction:

Made of durable food-grade plastic materials, safe, non-toxic, and BPA free. Three funnels nest to save storage space and come with a hanging-ring for easy storing in kitchen cabinets, garages or utility rooms. Convenient for anyone in the family to use. Ultra easy to keep clean even from oil, simple wash with warm water and add little soap or put it in the dishwasher and let the machine make the job for you. Excellent quality and durability: Our products are made of food-grade plastics and do not contain BPA. Compared with stainless steel funnels, they are not easy to deform and break, and there are no problems such as rust and corrosion. Multiple uses: In addition to filling liquids, it can also fill various solid particles, such as spices, rice, beans, feed, powder, etc. Their practicality can satisfy daily kitchen use. The kitchen funnel can cover your various use. It can be used to transfer oil, beans, milk, drink and food, like transferring liquids, dry ingredients, powder between containers, adding salt, pepper or herbs into cruets, filling small bottles. Durable & Safe: One type of funnels is mad of 100% food grade PP plastic, heat-resistant.
