Why Yarden?

We're Helping To Better The Planet, One Garden At A Time

We are **fearless** when it comes to growing great vegetable gardens - we aren't afraid to try new things to improve on old processes. We are **transparent** at all times, no gimmicks. We are **eco-friendly**, using all-natural methods of growing (no pesticides!). We are **generous**, always giving back to communities through our food sourcing programs. We are **gritty**, we don't do what is easy - we do what is right.

OFFERINGS

Vegetable Gardens And More

We grow quality, aesthetically pleasing vegetable gardens that yield an average of 25 - 50 lb. of fresh produce each month!

Need an additional yard project completed too? We've got you covered. Yarden's qualified landscape partners will gladly provide you an estimate for additional landscape tasks after the successful installation of your vegetable garden.

Safety - Our Pledge To Our Customers

We are dedicated to keeping our customers safe at all times. That's why we pre-screen all of our gardeners with a background check and make sure they receive proper training before they are sent into the field.

OUR MISSION

How We Are Re-Inventing Gardening

We are revolutionizing the home gardening industry by combining modern technology with traditional growing methods. Find out how we are impacting communities everywhere by giving them the ability to grow their own food, without needing to be garden experts themselves.
