- Rated for temperatures up to 194 degrees F
- Flame retardant and weather-resistant
- Rated for use up to 600-Volt and between 14-Degree F and 176-Degree F
- Excellent stretch, adhesion and conformability

PRODUCT DESCRIPTION

OTC Electrical tape black insulating tape comes in a 3/4 in width, uses a rubber adhesive . Can be used to a maximum temperature of +176 F. One of the unique features of this insulating tape is the elongation capabilities. The 3M insulating tape can be stretched 225 % for breaking. Provides a tensile strength of 15 lb/in. Many tape products can have either conductive or insulating properties which are used across a variety of applications. This insulating tape is electrically insulating. This product is a single-sided adhesive insulating tape. When purchasing this product, consider the thickness. The variances in thickness often make an important difference in proper performance. This insulating tape has a 7 mil thickness. In addition to the other properties this product is flame retardant. This insulating tape meets the following standards: CSA 2.22, UL 510.
