ARTICLE

Politicos Forecast Kentucky's Legislative and Gubernatorial Races in 2022 and 2023

It's conventional wisdom that the first midterm election after a presidential election usually delivers bad news for the party of the occupant in the White House.

In today's political climate though, conventional wisdom may not hold as true as it once did. Even two early indicators – this year's gubernatorial races in Virginia and New Jersey – offered mixed results for pundits to analyze. It's not uncommon for the opposite party to win the governor's mansions in those states the year after a presidential contest.
