I couldn't wait, I totally love it ! well you definitely can't go wrong with this shower curtain & you can decorate with different color of towels, so you're not stuck with same old color In you're bathroom, Very sturdy well made as well.

So far I have been very happy with this purchase. I researched between this and another similar brand. The material is thicker than your cheap store bought curtains. It's absolutely beautiful, just like the picture. So far it does not seem to be accumulating mildew and black mold, which the bathroom we have it in is a custom too. I have not machine washed it yet but I'm assuming it will hold up well because I have cheap shower curtain's that have made it through a wash cycle or two so I think this will do just fine.

This shower curtain is exactly what I wanted. The fabric is lightweight and the colors are vivid. I use a plastic liner with it. It's great.
