Auto Shut-Off: The mini humidifier will automatically turn off when the water is lower than the safe level and it will start the intelligent anti-dry burning program and automatic power-off protection after every 6 hours of work. Don't worry about the water being dry after falling asleep, the intelligent power-off of the humidifier will give you safer protection.

2 Mist Modes: The first model of this cool mist humidifier is Continuous Mist Mode, which can be used continuously for 12 hours by pressing the switch once. The second model of this portable humidifier is Intermittent Mist Mode, which can be used intermittently for 18 hours by pressing the switch twice.

Super Quiet: This room humidifier will lower the noise level by no more than 38 dB, which runs lightly without disturbing your sleeping, working, study, etc.

Easy to Clean & Refill: Designed with a large opening, mini humidifier is really convenient for your daily clean and easy to refill. No need to remove the water tank anymore, just twist the cover down and directly add water through the large opening top.
