- Lifetime Replacements Guarantee: We are standing behind the products we sell. If your units are defective or broken, we will arrange the replacements for you with no cost; You don't even need to send your original defective units back.
- Reasonable Price: This was an excellent price for three umbrellas with auto open and close, it would have been a reasonable price for just one of these.

- **Automatic Folding Umbrella:** It has an auto open & close button that you absolutely love. At 13" when compacted, it is amongst the smaller end of its class and easily fits in your glove compartment; However, it pops out to a generous 46" canopy that offers great coverage for all.
- **Travel Gift:** It's pretty light weight and it's definitely a good size for traveling. You can take it out for a long trip; It withstand the elements very well.
- **Sturdy and Strong:** Pretty durable during a wind storm and it does help with keeping the rain away as long as it's not going sideways. A good combination of weight and strength. Easy to carry in backpack and stands up to strong winds.
