Introducing a revamped Upstox!

Upstox is one of India's fastest-growing investment platforms trusted by 50 lakh+ customers. With our powerful platform, you can invest easily in Stocks, Mutual Funds, IPOs, F&O, Commodities, and Currencies at minimal brokerage charges.

However, we wanted to make investing and trading even easier.

So, over the past few months, we spoke to our active users to collect insights on how they use our app, how they trade, and what their needs are. Based on this we created various concepts and prototypes and went back to them with these. Finally, after multiple rounds of testing, we're introducing a revamped Upstox.

It's faster, easier, and even more exciting than before.

Whether you're new to the markets or an experienced trader, we've put everything you need in the palm of your hand.

WHAT'S NEW

New and improved user interface - A fresh and clean design to help you invest with ease and confidence.

Discover Section - A dedicated section to find new investments opportunities

Smartlists - Stock lists based on a theme, sector, technical indicator, or fundamental data. Eg. Top Gainers, Automobile Based Stocks, F&O Weekly High Stocks, and more

It's a great app with too info and at times you get fed up. It should be simple and straight forward. The old one is perfect.
