Description

Reviews

Product Introduction:

PACKAGE INCLUDING: stainless steel wire rope cable, and stainless steel thimble. Very suitable for cable railing system.

HIGH QUALITY MATERIAL: Cable railing kits are made of high quality stainless steel, corrosion resistance, with durability and strength.

Thimbles Of Metal: Applicable to wire rope cable, with vise, pliers, press to lock both ends of the wire, can firmly fix both ends of the cable, strong and durable.

WIDELY USED: Wire rope cable is widely used for making cable balustrade system, homemade balustrade, outdoor sunshade, garden hanging lamp, gardening buoy, clothesline and other railings crafts.

PROTECTION DESIGN: Wire rope cable can be tailored freely according to the length of use. Thimbles of metal can help prevent the cable from flattening around the hole and increase the service time of the cable.
