1. High quality: This lemon strainer can juice limes, large lemons, and even small oranges. This manual filter uses rugged industrial aluminum and a non-toxic certified lead free coating for safety and reliability. It has high oxidation resistance, impact resistance, food safety material, corrosion resistance, safety and durability. Lemon filters will not bend or break from overuse.

2. Perfect design - Ergonomic handle: This lemon filter has been carefully designed with ergonomic long handle for comfortable squeeze. Citrus fruits can be easily and very efficiently squeezed due to the leverage of the long handle.

3. Easy to use, clean and store: Lemon filters help you extract every drop of juice and flavor. Simply cut the lemon in half, place the meat side down, and squeeze! Hand-juiced, with a hole in the end for the lemon clip to hang. Rinse with water after use to keep the extruder clean.

4. Wide range of applications: Lemon filters can provide a pleasant experience and make cooking more fun. You can get fresh juice in a short amount of time with minimal effort. It can be used at home, picnic, office and so on.
