

TMJ RELAX

A TMJ THERAPIST IN YOUR MEDICINE CABINET

You are suffering from headaches, jaw soreness, ear issues, or teeth clenching & grinding

So you go to your dentist and have them evaluate you

TMJ Relax™

You ask about TMJ Relax and your dentist recommends it for you

1

2

3

Your dentist takes a simple impression of your mouth and uses our easy Rightbite™ technique to determine a relaxed jaw position

We scan the impressions of your mouth and use a proprietary software algorithm to determine sources of pressure that are causing symptoms

A mouthguard called an orthotic is designed personally for you

4

5

6

Your dentist gives you the orthotic and you simply wear it on your lower teeth

You see your dentist for followups. They make a series of up to three mouthguards that helps your jaw progressively relax or make simple adjustments as needed.

You feel significantly better immediately. The full results happen over 4-6 months
