

Are you having headaches, facial pain, or having ear issues? You're not alone.

Many people suffer for far too long. They go to numerous healthcare providers and try various treatments, with minimal relief. But it could be they are failing to treat TMJ disorder. A common disorder that causes issues of the head & neck.

In the past, TMJ disorder was complicated and expensive to treat—until now.

Introducing TMJ relax, a FDA cleared medical device for headaches, bruxism, and symptoms of TMJ disorder. Created by the nation's leading TMJ dentist, TMJ Relax is the most effective, efficient, and affordable way to treat TMJ disorder at your dentist.

How it works

1

Your dentist takes impressions with our simple RightBite™ protocol.

2

We use a computer algorithm to make TMJ Relax personally for you.

3

You wear TMJ Relax mouthguard comfortably on your lower teeth.

4

You follow-up with you dentist for a series of mouthguards or simple adjustments.

12% of the Population Suffers From Severe Symptoms
950 Million People Suffer From TMJ Disorder Worldwide

IT'S TIME WE CHANGE THAT.

C

Correct:

Our RightBite™ protocol corrects the symptoms

A

Adjust:

TMJ Relax adjusts to a comfortable jaw position by removing bite interferences

Why it Works:

CALM

L

Land:

The bite position lands into its most optimal position in a few months

M

Maintain:

You and your dentist maintain the relief. You can continue to wear TMJ Relax or you may consider orthodontics or other methods to balance the teeth.

Relief from headaches and TMJ pain by wearing a comfortable mouthguard made by your dentist.
It's Easy. No surgery or Complicated Treatment.
